Is over-speed the cause for accidents?

Speed radar guns to book violators on Expressway

Penal action including suspension of DL on those over-speeding beyond 100 kmph

Mysuru, July 5 (Vinay Karekura & BCT)- The Mysuru-Bengaluru Expressway is experiencing an alarming rise in accidents, prompting proactive measures by the Police.

Speed interceptors (speed radar guns) installed in patrol vehicles have now been deployed by the Ramanagara Police to address the issue.

Additional Director General of Police (Traffic and Road Safety) Alok Kumar has confirmed the use of speed radar guns to capture instances of high-speed violations on the Expressway.

"Booking cases using speed radar guns for over-speeding on the Expressway. Appreciate action by SP Ramanagara and his team. **Follow traffic rules to save lives,** not to save a fine amount," Alok Kumar tweeted last night.

Police sources told *Star of Mysore* that Channapatna-Mandya section is the most dangerous with maximum fatalities and as such, the Ramanagara Police have deployed speed interceptors. "The radar gun is placed inside a patrol vehicle and it will not be stationed at one point. Rather, the vehicle will move around and be stationed at strategic points along the Expressway," a source added.

(See VIOLATORS on page 7)

People point at signboard that demarcates speed lanes

The Police action to deploy speed radar guns on the Mysuru-Bengaluru Expressway has evoked sharp responses from the public.

Replying to ADGP (Traffic and Road Safety) Alok Kumar, Ravikeerthi, a social media influencer, shared a photo of a signboard on the Expressway that demarcates the lanes for speeds. The signboard shows separate lanes for 80 kmph - slow lane; 100 kmph - fast lane; 120 kmph - overtaking lane. "If you are booking cases for over-speeding for driving above 90 kmph, why does the National Highways Authority of India have this board? Is this an Expressway or a normal road? They should change the name from Expressway to Normal Highway and change the toll prices too," Ravikeerthi stated.

Pawar Vs Pawar in Maharashtra potboiler

Ajit Pawar flaunts 35 MLAs support out of 53; Sharad Pawar 14

Ajit Pawar *Sharad Pawar*

Mumbai, July 5 (Agencies)- As many as 35 of 53 Nationalist Congress Party (NCP) MLAs were present at the party meeting convened by Maharashtra Deputy Chief Minister Ajit Pawar in Mumbai today. The number will increase further, sources said.

Five of eight NCP MLCs are also attending the meeting taking place at Mumbai Education Trust in Bandra, they said.

According to former Principal Secretary of Maharashtra Legislature Anant Kalse, Ajit Pawar camp needs the support of at least 36 MLAs to avoid disqualification.

Meanwhile, NCP Chief Sharad Pawar's supporters thronged his residence in South Mumbai, hours ahead of the show of strength meetings convened by him and Ajit Pawar, who parted ways to become the Deputy CM.

Sharad Pawar had called for a meeting of MLAs and party workers at 11 am at Y.B. Chavan Centre at Nariman Point. About 14 MLAs supporting the NCP Chief turned up at the meeting when we went to Press.

Kannada Kavya Ranjani at Ganabharathi on July 7

Vidu. Medha *Vid. Phaneendra* *Vidu. Shruthi* *Vid. Sai Shivu* *Vid. Raghunandan*

Mysuru, July 5- Ganabharathi has organised Kannada Kavya Ranjani, a music concert by Vidu. Medha Manjunath and Vid. Aanoor Phaneendra Sharma on July 7 (Friday) at 6 pm at Veene Seshanna Bhavana, Adichunchanagiri Road, Kuvempunagar in city.

They will be accompanied by Vidu. C. V. Shruthi on violin, Vid. Sai Shivu on mridanga and Vid. Raghunandan V. Rao on ghata.

This programme is sponsored by Rajani and Ravishankar, according to a press release.

EDITOR'S BOTTOMLINE

The season of elections is upon us. The Opposition's search for a winning electoral strategy to challenge the dominance of the Bharatiya Janata Party must contend with the inherent contradictions of a fractured polity that has birthed the disarrayed political parties but which must now come together in a unity of larger purpose. The state of the nation, riven by endless schisms, dehumanising insensitivity to the human condition and an accentuated assault on Constitutional fundamentals presents an exceptional situation meriting an extraordinary response. An objective scrutiny of the state of 'Naya Bharat and Shreshta Bharat' lays bare as never before, the nation's depressing social and political realities.

The outcomes of the ensuing State Assembly polls and the Lok Sabha election in 2024 will test our collective resolve to energise the nation's political order and refashion a pluralist democracy around an exalting Constitutional imagination. We are indeed collectively charged with a duty to reconstruct our democratic universe around 'the meaning of first things' and to remind ourselves that inaction in the face of wrong leaves the soul divided against itself. Clearly, resistance against the muscular propensities of an emerging leviathan state warrants a passionate participation of citizens, particularly of the intelligentsia, who must remind themselves of the limitations of interpreting the world without changing it. Nor can we forget an abiding truth of history that a pervasive sense of injustice carries within itself the seeds of disruptive retribution and that the progressive advance of human civilisation is embellished by the triumph of right over wrong.

The choice we make at the hustings, deservedly in favour of dignity, justice, inclusion, fraternity, sensitivity to popular perceptions and accountability of power will determine whether or not India's electoral democracy can vindicate its liberal promise. *— Ashwani Kumar, Senior Advocate, Supreme Court of India and former Union Minister for Law and Justice, in The Hindu*

NEWS SPARKLERS

Mayor marries alligator-like reptile

San Pedro Huamelula: A Mayor in Mexico has married a female alligator-like reptile in a traditional ceremony which is believed to bring good fortune to his people.

Victor Hugo Sosa wed the caiman reptile called Alicia Adriana as he re-enacted an ancestral ritual. Local lore, or tradition, calls the creature the "princess girl" and the mayor said the pair "loved each other".

Onlookers clapped and danced in San Pedro Huamelula, a town of indigenous Chontal people in Oaxaca State, southern Mexico, as they entered into holy matrimony.

Sosa said during the ritual: "I accept responsibility because we love each other. That is what is important. He was pictured kissing the animal on the head.

Shopper finds snake inside broccoli bag

Stourbridge: An elderly man got a shock of his life after finding a live snake in a bunch of broccoli he says he purchased from an Aldi store in Stourbridge in the West Midlands.

Neville Linton, 63, described finding the reptile, which was identified as a ladder snake, as a "frightening" experience.

When taking it out of his fridge, he found the non venomous snake near the stem.

"It was pretty frightening. I'm not good with snakes. It's lucky I didn't just leave the broccoli out in the kitchen, or it would have been loose in the house. That would have been a huge risk for us," Linton said.

The ladder snake is native to south west Europe including Portugal, Spain and southern France. Although the species is not venomous, it can give a serious bite. The snake was later taken to Dudley Zoo.

HEALTH CAPSULE

Simple way to avoid iron deficiency anemia is to eat food rich in iron like green leafy vegetables, broccoli, fruits, whole grains and red meat.

Traffic awareness at Mahajana College

'Change your helmets once in 5 years or if damaged in fall'

Mysuru, July 5- "Life is very precious. Always discourage your friends and family who ride without helmets because it might be the last time you see them," said Murgesh Premkumar, Founder, The Workshop Factory.

He was speaking at the Traffic Awareness Programme held at Mahajana First Grade College (FGC) in Jayalakshmipuram here recently.

The event was organised by the Traffic Awareness Committee, the Department of Physical Education and NCC in association with IQAC with the intention of educating the students about traffic safety measures.

Murgesh, who lost his brother two years ago in a road accident, has been involved in educating the youths about safety measures to prevent motorcycle accidents.

"My brother's death impacted me and my family deeply. His small decision to not wear a helmet took away his life. Don't commit the same mistake. You will leave your loved ones in a lot of pain," he said and added, "Always be extra cautious while riding. Ensure to wear safety gears. Nothing prepares you for a crash. No training ever is going to help you. Every rider should abide by the traffic rules for their own safety."

He urged students to change their helmets once in 5 years or if it is damaged in a fall. He also presented statistics to show that 90% accidents occurred within 5 km radius of the rider's house.

On an average, 47 people die in road accidents in our country every hour. The ratio of male to female death due to road accidents is 100:30. A total of 181 people have died in the past year out of which 30 people were aged between 18 and 25 years, he stated.

Murgesh also educated the students about various motorcycle gears, riding gears and so on.

College Principal Dr. B.R. Jayakumari; Head of the Department of Physical Education Dr. Bhaskar; Major B.R. Nikhil from NCC, staff and students were present at the event.

VOICE OF THE READER

Rash driving by KSRTC bus drivers on Mysuru-Kodagu Road

Sir,

I am writing to bring attention to a serious issue concerning the rash driving habits of several KSRTC bus drivers, particularly those operating the red buses, on the Mysuru-Kodagu Road.

As a frequent commuter on this route, I have personally witnessed numerous instances of reckless driving, seemingly driven by a desire to adhere strictly to the schedule. These drivers often exceed speed limits, attempt dangerous overtaking manoeuvres on the two-lane highway, and create a sense of fear in two-wheeler riders.

Regrettably, I have found myself in situations where I had to hastily veer off the road to avoid head-on collisions with KSRTC buses, despite clearly observing oncoming traffic in the left lane.

The recent car-bus accident in Bilikere, resulting in the tragic loss of a Kodagu couple, serves as a stark reminder of the dire consequences that can arise from such reckless driving practices. To address this growing concern, I would like to suggest three measures that have proven effective elsewhere, as discussed in the news report published in *SOM* yesterday on the Mysuru-Bengaluru Expressway:

1. Mandatory installation of speed governors on all KSRTC buses to limit their maximum speed and promote safer driving habits. **2.** Strengthened driver training programmes focused on safety and responsible driving practices. **3.** Increased presence of highway patrol officers who can actively monitor and penalise drivers engaged in rash and dangerous driving behaviours.

It is disheartening to witness the tarnishing of the reputable KSRTC brand by a few drivers who not only endanger the lives of other road users but also undermine the trust we place in our State's premier transportation service.

Free Spoken Sanskrit Workshop begins

Mysuru, July 5- A 10-day free Spoken Sanskrit Workshop has begun in the Sanskrit Department, Manasagangothri, University of Mysore, from July 3 to 14.

Department Chairperson Prof. Vijayakumari Karikal, while inaugurating the camp, spoke at length about the glorious legacy of Sanskrit. She assured to provide support to take the Department to newer heights.

Chief guest S. Subrahmanya, professionally a Software Engineer working in USA and passionately associated with Samskrita Bharati, which is a voluntary organisation, spoke about the **enormous job opportunities for Sanskrit scholars in the field of Artificial Intelligence (AI), Machine Learning, translation and so on.**

Guest Faculties of the Department Dr. R. Suresha, Dr. Suresh Hegde, Dr. S.M. Pushpalatha, Mysore Divisional Co-ordinator of Samskrita Bharati Ganesha Datta and the Camp Facilitator Parvata Vardhini were present. The camp, open for those above 13 years, is conducted between 4 pm - 6 pm. For details, contact Mob: 99808-33466.

Chamundeshwari Vardhanti atop Hill on July 10

Mysuru, July 5- Vardhanti Mahotsava of Goddess Chamundeshwari will be held atop Chamundi Hill on July 10. The Festival is held in the month of Ashada, under Hindu Chandramana calendar.

5.30 am: Mahanyasa Purvaka Rudrabhisheka, Panchamruta Abhisheka, Sahasranamarchane and Mangalarati; **9.30 am:** Mahamangalarati; **10.30 am:** Chinnada Pallaki (Golden Palanquin) Utsava, Mantapotsava, Prasada Viniyoga; **8.30 pm:** Utsava Phala Puje, Durbar Utsava Mantapotsava and Rashtrashirvada.

On July 10, *darshan* for devotees will be facilitated from 8 am onwards after special abhisheka is completed and on Ashada Fridays, temple will be closed at 10 pm, according to a press release.

Talk on 'AI and the Future of Humanity: Power, Pitfalls and Prudence'

Dr. Shalini Urs

Mysuru, July 5- Mysore Open Forum has organised a talk on 'AI and the Future of Humanity: Power, Pitfalls and Prudence' by Dr. Shalini R. Urs, Founder, MYRA School of Business, Executive Director Emerita and Professor, International School of Information Management, University of Mysore (UoM), at 10.30 am on July 8 at Kalpa Kshetra Auditorium, #581/1, Vijayanagar 4th Stage, 1st Phase, Mysuru. The talk is open to all. [Mob: 94498-19536]

Dr. Shalini Urs began her career by joining UoM as a Library and Information Science lecturer in 1976. She was instrumental in setting up the International School of Information Management in UoM in 2005 with funding from the Ford Foundation.

She was a Fulbright Scholar and a Visiting Professor at the Department of Computer Science, Virginia Tech, USA, during 2000 - 2001; an adjunct faculty at the International Institute of Information Technology, Bangalore (IIITB) during 2005-2007; and a Visiting Professor at the Documentation Research and Training Centre, Indian Statistical Institute, Bengaluru, during 1998 and 1999.

Dr. Urs has won many awards including Adobe-NDLTD - Leadership Award in 2004 and Emerald Research Fund Award 2007-08. She was awarded Mortenson Distinguished Lecturer 2010 by the University of Illinois Urbana Champaign, USA. She was conferred with the Women Leadership Award by Dewang Mehta Business School in 2014 and the Education Evangelist Award of India by Skill Tree Foundation in 2015 for her outstanding contribution to higher education.

Artificial Intelligence (AI) has been garnering attention for a couple of years. AI's immense potential and transformative power are absolute. AI will advance at a frenetic rate, accelerating its deployment and transforming domains — from agriculture to healthcare to warfare, in an unprecedented manner.

H.D. Kote youth dies of dengue in South Africa

Tahsildar visits deceased youth's house;

Indian Embassy to help bring body home

H.D. Kote, July 5- Indian Embassy Officer Purushotham Syamal has assured of helping to bring the body of Efrahim to India, said deceased Efrahim's uncle Billa.

Efrahim

Efrahim (19), a resident of Tiger Block in the taluk, had gone to Ivory Coast in South Africa to sell Ayurveda herbs along with his uncle Billa and others in Aug. 2022. On Monday last, Efrahim, who was diagnosed with dengue fever and undergoing treatment at a hospital, succumbed to the disease.

Meanwhile, Tahsildar Sannaramappa, who visited the house of Efrahim at Tiger Block, spoke with the family members and informed them that a complete report has been submitted to the district officials to bring the body to India.

Tahsildar Sannaramappa and other officials collecting information about deceased Efrahim from his family members in H.D. Kote yesterday.

Efrahim's sister Kannika said that he (Efrahim) had gone to South Africa to help them (his sisters) get good education and secure good jobs. Kannika further said that her brother had told her and her sister to study well and that he would bear their educational expenses.

She has urged the Government to help bring Efrahim's body to India so that they could see his face for the last time.

SC/ST Welfare Officer Narayanaswamy, Revenue Officer Mahesh, Village Accountant (VA) Divya accompanied the Tahsildar.

Dr. P.C. Kumaraswamy is new Mysuru DHO

Mysuru, July 5 (RK&DM)- The State Government on Monday transferred Mysuru District Health Officer (DHO) Dr. K.H. Prasad. He has been replaced by Dr. P.C. Kumaraswamy, who was serving at Chitradurga.

Dr. Kumaraswamy

Dr. Prasad

Dr. Prasad's transfer comes just a couple of days after he was conferred the 'Best District Health Officer' award from the Government during the National Doctors Day celebration at Bengaluru on July 1. Dr. Prasad had taken charge as Mysuru DHO in June 2021, amidst the COVID pandemic. The transferred Dr. Prasad has been asked to report at the Office of the Commissioner of Health and Family Welfare Department at Bengaluru for new posting, it is learnt.

Legislature Session till July 21

Bengaluru, July 5- The Budget Session of the State Legislature has been extended to July 21. Earlier, the Budget session, which began on July 3, was scheduled to conclude on July 14.

Chief Minister Siddharamaiah, who also holds the Finance Portfolio, will present the Budget on July 7.

Graft charges: PHC Health Officer suspended

Mysuru, July 5 (RK&DM)- A Health Officer, serving in a city PHC (Primary Health Centre), has been suspended on graft charges.

Dr. K.P. Komala, who was serving as the Health Officer at Shantinagar PHC in the city, is the one who has been suspended, after a video in which she was seen accepting money as bribe from patients visiting the Shantinagar PHC for treatment and issuance of free medicines, went viral on the social media recently.

As the video went viral, the then DHO Dr. K.H. Prasad had carried out an enquiry and submitted a report to the Health and Family Welfare Department on June 28. Based on the report, the Department Commissioner D. Randeep suspended Dr. Komala, pending Departmental enquiry.

MCC raids shops selling banned plastic materials

228 kg plastic seized; four shops sealed

Mysuru, July 5 (SBD&KS)- Mysuru City Corporation (MCC) officials, who raided various shops at Shivarampet and Santhepet yesterday, have seized 228 kg of banned plastic materials from the shops besides collecting a total fine of Rs. 22,000 from the shopkeepers.

The officials have also sealed four shops for storing the banned plastic items. The officials had earlier imposed fines on these shops many times and the shopkeepers were also warned not to store or sell the banned plastic. As these four shops continued to violate the norms, the MCC Officials sealed the four shops. The raids were held by the MCC team comprising officials and Abhaya team members, who were led by MCC Environmental Engineer Mythri.

Meanwhile, a few environmentalists said that the MCC raiding shops in Shivarampet and Santhepet and seizing plastic items has become a normal procedure.

The shopkeepers have got used to the raids and they pay the fine imposed by MCC but continue to sell and store the banned plastic materials, the environmentalists said and added that most of the shopkeepers store large quantity of the banned materials in secret godowns and only bring a small quantity of it to the shops to sell, which gets seized by the MCC.

Shopkeepers say that the customers ask for plastic covers after they purchase items from them but when they (shopkeepers) say that they do not have plastic covers, the customers do not buy from them and move to another shop.

Environmentalists said that the MCC should effectively implement the plastic ban and should seize the banned items when it enter their jurisdiction itself instead of raiding shops and then seizing the banned items.

Two killed as bikes collide near Badanavalu

Nanjangud, July 5- In a hit-and-run case, two persons were killed while another sustained injuries when an unidentified bike collided into their bike and sped away on Chamarajanagar-Nanjangud Road near Badanavalu on Monday.

The deceased have been identified as Mahadevaswamy (35) of Bogadi in Mysuru and Prajwal (25) of K.R. Nagar. The injured is Nanjunda. All the three were friends and on Monday they had gone triple riding to attend Chamarajeshwara Jatra at Chamarajanagar and were returning on the bike at about 5 pm.

When they were proceeding near Badanavalu, the unidentified bike while overtaking another vehicle hit the bike on which Mahadevaswamy, Prajwal and Nanjunda were riding resulting in Mahadevaswamy and Prajwal sustaining serious injuries and Nanjunda suffering minor injuries.

Though all the injured were admitted to a hospital, Mahadevaswamy and Prajwal succumbed to injuries at the hospital on Tuesday.

Kavalande Sub-Inspector Krishnakanth Koli said that the rider, who had hit the bike the trio were riding has fled from the spot soon after the accident.

A case has been registered at Kavalande Police Station.

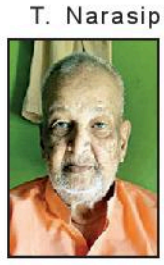
Obituary

N. Govindaraju

Mysuru, July 5- N. Govindaraju (56), a resident of Durga Devi Temple Street in Gandhinagar, passed away on Monday following brief illness at K.R. Hospital in city. He leaves behind his wife Suvarna, sons Punandaraj, Gaganraj, Santoshraj and a host of relatives and friends. Last rites were held at Adi Jambhava Burial Grounds in Gandhinagar on Monday evening.

Sri Chandrashekara Swamiji of Viraktha Kalmutt passes away

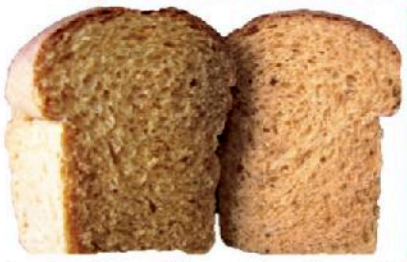
T. Narasipur, July 5- **Sri Chandrashekara Swamiji** of Talakad Mudukuthore Srikshetra Viraktha Kalmutt, passed away yesterday. He was 81. The body was kept at Kalmutt for the devotees to pay their last respects. Last rites were held at Kalmutt premises today.



Social Welfare Minister Dr. H.C. Mahadevappa, former MLA M. Ashwin Kumar, former MyMUL President Om Prakash and others have condoled the death of Sri Swamiji.

CFTRI launches three new healthy food tech products

Buckwheat-based gluten-free cake mix, spice bread, fibre-enriched rusk



Mysuru, July 5 (BCT)- The CSIR-Central Food Technological Research Institute (CFTRI) released three new technologies on day-2 (Tuesday) of the ongoing 'One Week One Lab' (OWOL) campaign.

Former World Health Organisation (WHO) Chief Scientist and Chairperson of M.S. Swaminathan Research Foundation Dr. Sowmya Swaminathan, who was the chief guest, released the technology of spice bread. Gluten-free cake mix and fibre-enriched rusk were released by CFTRI Director Dr. Sridevi Annapurna Singh and West Bengal Electricity Regulatory Commission Chairperson Dr. M.V. Rao.

Gluten-free cake mix

Packaged bakery premixes provide a convenient solution for consumers, food service operations and industrial-scale bakeries by saving time and simplifying ingredient selection.

One popular type is cake mix, which contains essential ingredients like flour, sugar, shortening, leavening agent, natural colour, and flavouring. The premix only requires the addition of water or milk, eggs and cooking oil, enabling quick and easy cake production. For individuals with gluten sensitivities, gluten-free cake mix is available, ensuring it contains less than 20 parts per million (ppm) of gluten. It includes all the necessary ingredients to make cakes, muffins, cupcakes, or pastries without gluten-related issues. To improve nutritional quality, the CFTRI has developed a buckwheat-based gluten-free cake mix specifically for individuals with celiac disease. This alternative is rich in protein, fibre and minerals, meeting the demand for healthier and convenient food options. The production of premixes requires specific equipment, such as a hammer mill for ingredient processing, a planetary mixer for thorough mixing, an electronic balance for precise measurements and a sealing machine for packaging. Entrepreneurs can invest around Rs. 7,52,370 to produce this innovative product.

Spice bread

The functional properties of wheat-based food formulations can be enhanced to address lifestyle disorders. Natural ingredients found in India have shown potential in improving health conditions and combating immune-related diseases. Incorporating these functional elements into bakery products, like bread, has become popular for their ability to reduce the risk of chronic diseases.

A combination of functional ingredients has been tested to develop bread with anti-inflammatory properties. Histopathology assays have shown that this bread exhibits effects similar to standard anti-immunomodulatory drugs, indicating significant anti-inflammatory potential and the ability to enhance the immunological response to inflammation.

To produce bread with an enhanced anti-inflammatory response, a ready formulation and specific processing conditions are recommended. The raw materials include a blend of boosting ingredients and standard bread-making ingredients. The total project cost amounts to Rs. 9.4 lakh.

Fibre-enriched rusk

Rusk is a hard, dry biscuit or twice-baked bread that is commonly consumed with tea or as a snack. It is sold in bakeries, tea shops and supermarkets. The samples are typically rectangular or semi-circular in shape, with a golden-brown crust, brown crumb colour and a crisp texture. They have a pleasant aroma and can be stored for up to three months in a cool, dry place.

The fibre-enriched rusk is made from whole grains, providing increased fibre and protein content compared to regular rusk. Its production can be easily adopted by existing units. The potential for rusks in India is significant, offering various advantages.

This product category can serve as a means to promote nutrition, particularly for the general public or targeted populations. Additionally, fibre-enriched rusk contributes to the health/therapeutic product category.

The major equipment required includes a flour sifter, mixer, moulding machine, baking oven, cooling conveyor, slicer and packaging machine. The total project cost is Rs. 9.4 lakh.

'Open Day' at CFTRI for public, students on July 6, 7

Mysuru, July 5 (BCT)- As part of the ongoing week-long 'One Week One Lab' (OWOL) campaign at the Council of Scientific and Industrial Research (CSIR) - Central Food Technological Research Institute (CFTRI) in Mysuru, the premier food research institute will be open to the public and students through 'Open Days' on July 6 and July 7 from 10 am to 4 pm. The entry will be through North Gate (Near Akashvani, Vivekananda Statue, KRS Road)

This event is being organised under the guidance and supervision of the Ministry of Science & Technology. The main focus of the event will be on celebrating food research as part of the OWOL Programme. The slogan of the CFTRI's campaign is 'Celebrating Food Research.'

The institute is welcoming the general public, students and entrepreneurs to gain insight into the ongoing research and technology development in the fields of Food Science and Technology and Food Processing. It is showcasing the Institute's cutting-edge research, expertise and facilities.

The event will feature product displays, food machinery demonstrations and a food expo showcasing the stalls of CFTRI licensees who have adopted CFTRI technologies.

The Food Expo will provide information about CFTRI's innovative technologies and their relevance to entrepreneurship. It's a valuable opportunity for the public and entrepreneurs to gain a glimpse into CFTRI's work and interact with our scientific staff to learn more about our scientific and research activities. For further details, contact Ph: 0821-2514534; e-mail: *iandp@cftri.res.in*

Rajya Sabha Polls on July 24

New Delhi, July 5- The election to 10 vacant seats of the Rajya Sabha will be held on July 24.

The vacant seats are caused by the completion of the tenure of External Affairs Minister S. Jaishankar, Trinamool Congress leader Derek O'Brien and others, whose term is set to expire between July 28 and Aug.18.

The voting for electing members to the 10 seats will take place at 5 pm on July 24 and the results will be announced the same day, according to the Election Commission of India.

The 10 seats include one from Goa, three from Gujarat and six from West Bengal States.

Former WHO Chief Scientist underlines healthy eating habits

Former WHO Chief Scientist Dr. Sowmya Swaminathan** (centre) **flanked by CFTRI Director Dr. Sridevi Annapurna Singh and West Bengal Electricity Regulatory Commission Chairperson Dr. M.V. Rao.

Mysuru, July 5 (BCT)- During her presentation on Food Systems for Equitable and Sustainable Health, former World Health Organisation (WHO) Chief Scientist and Chairperson of M.S. Swaminathan Research Foundation Dr. Sowmya Swaminathan underlined the importance of policy, regulations and behaviour change in preventing non-communicable diseases (NCDs).

"One key aspect is the need for nutrition literacy in schools to educate young individuals about healthy eating habits. Another critical focus area is primary healthcare, which involves screening, early detection, and ensuring compliance with treatment, particularly among younger individuals who are increasingly prone to developing NCDs," she said.

Dr. Sowmya Swaminathan also underscored the significance of community involvement and co-developing solutions to address the rising cases of obesity.

Additionally, she emphasised the importance of making physical activity appealing and practical, considering the prevalence of sedentary lifestyles. By adopting these strategies, it is possible to promote healthier lifestyles and reduce the burden of noncommunicable diseases, she added.

Monsoon picks up pace in Kodagu after a month

Madikeri, July 5 (PS&BCT)- After a huge shortfall of rain in the month of June, the time when the Southwest Monsoon normally sets in Kodagu district, intermittent rains and cloudy weather conditions over the last two days have set the tone for the onset of monsoon and agricultural activities have gained momentum.

Bountiful rain has been lashing parts of the district and Bhagamandala, Madikeri, Napoklu, Karike, Kutta and Makutta are experiencing heavy showers. Farmers who were waiting for the monsoon to gain steam, for the transplantation of paddy seedlings, were relieved by the rain lashing the region.

The Indian Meteorological Department (IMD) sounded a red alert in the district on July 5 (today). The possibility of rainfall ranging from 115.6 mm to 204.4 mm was predicted by the IMD.

A few trees along Mysuru-Madikeri Road (NH 275) were uprooted, causing a disruption in traffic for the past two days due to heavy winds and rain. Near Boikeri, a tree fell on an electric pole, resulting in complete chaos with vehicles stuck on both sides of the road.

Local authorities, Police and the public managed to remove the fallen trees and the electric pole. Fortunately, there were no casualties. Yesterday, the situation worsened as incessant rain continued, causing concerns. Traffic between Madikeri and Mysuru was completely disrupted, and there was no alternative route available for smooth traffic. Vehicles could move only after the trees were cleared.

Rainfall data in the last 24 hours

In Kodagu district, on Tuesday morning at 8.30, it rained an average of 14.62 mm over the past 24 hours. On the same day last year, it was 45.16 mm during the same period. From January until now, the rainfall in this area has been 356.90 mm, whereas, during the same period last year, it was 891 mm.

In Madikeri taluk, the last 24-hour average rainfall is 31.85 mm, while last year on the same day, it was 74.30 mm. The total rainfall from January until now is 569.11 mm, whereas it was 1310.79 mm during the same period last year.

In Virajpet taluk, the last 24-hour rainfall is 4.08 mm. Last year on the same day, it was 31.32 mm. The total rainfall from January until now is 244.62 mm, whereas it was 723.76 mm during the same period last year.

In Somwarpet taluk, the last 24-hour average rainfall is 7.92 mm. Last year on the same day, it was 29.87 mm. The total rainfall from January until now is 256.96 mm, whereas it was 638.44 mm during the same period last year.

Rainfall details in the district: Madikeri Kasaba: 22.20 mm, Napoklu: 7.20 mm, Sampaje: 64 mm, Bhagamandala: 34 mm, Virajpet Kasaba: 6.80 mm, Hudikeri: 11.40 mm, Srimangala: 3.80 mm, Ponnampet: 2 mm, Balele: 0.45 mm, Somwarpet Kasaba: 10 mm, Shanivarasante: 2.40 mm, Shanthalli: 20.40 mm, Kodlipet: 1.60 mm, Kushalnagar: 3.80 mm, Suntikoppa: 9.30 mm.

Mud-mixed water seeps out of DC Office retaining wall

Madikeri, July 5 (PS&BCT)- The restoration work of the retaining wall beneath the Kodagu DC Office Complex compound in Madikeri, which suffered cracks during the previous monsoon, is still pending and the wall has now raised concerns among the travellers on the Madikeri-Mangaluru Road.

The wall poses a problem for motorists and could potentially disrupt the busy road and in case there is a blockage, no other route is available except for one route through the interiors of Madikeri.

As a temporary solution, tarpaulins have been used to cover and protect the wall from the damage that will be caused by incessant rains.

The substandard construction of the retaining wall, costing Rs. 7.5 crore, gained huge attention and this even became an election issue. However, the Congress MLAs, who came to power in Kodagu after humbling the BJP, have not yet been able to find a solution for this problem. Only the Junior Engineer of Madikeri Division Devaraju has been suspended. But for this, no action has been taken so far.

The 40-foot tall and 140-metre-wide retaining wall was on the brink of collapse, leading to the diversion of traffic in July last year. Although the hazardous concrete slabs were removed over four months ago, the landslide-prone area is now exposed to a huge rain risk.

Even scientists from the Indian Institute of Science (IISc), Bengaluru, visited the site and it was decided that the retaining wall would be reconstructed using soil nailing technology.

Before the monsoon, the soil nailing process was on where 15-metre iron rods were inserted into the mud wall with the help of machines and 645 soil nails had been inserted and strengthened using cement grouting. However, work has not progressed beyond that point.

The wall is once again leaking from all sides and water is flowing on the road. The plastic-laden wall is leading to internal seepage and the damage is being caused by a pipeline and the water which flows from the drains of the DC Office.

According to PWD officials, the restoration work was delayed due to technical issues. They said that the Contractor has been instructed to prioritise the completion of foundation works, including drainage systems. The old concrete plates have been removed and will be replaced with new ones and measures will be taken to address blockages and sliding, officials added.

Hill climbers, devotees seek basic amenities along steps

Mysuru, July 5 (SPN&BS)- It has been two weeks since Ashada Friday rituals began at Chamundeshwari Temple atop the Chamundi Hill but the District Administration is yet to provide lighting facility for those climbing the hill steps to reach the temple.

The devotees who regularly climb the hill rue over the apathy of authorities, as their repeated pleas to provide basic amenities have fallen on deaf ears. They have to take the steps during pre-dawn hours and dusk in the pitch dark, till sun rays hit the ground.

To reach the hill top, one has to climb 1,008 steps. On several occasions, memoranda have been submitted to provide toilet, light and drinking water facilities alongside steps, but to no avail.

It has been a tradition in practice among women, irrespective of State and District during Ashada to take the stairs to the hill to fulfil their vows. Some even apply turmeric and vermilion to every step praying to the Goddess. They start as early as 4 am, but in the absence of lighting facility, they rely on mobile phone torch.

Basavaraju of the city, who has represented the country in various international sports events, said: "Last Friday I had gone along with my wife to the Hill by steps during the early morning hours. But due to lack of lighting facilities, we had to use mobile phone torch to see the way. Many women who climb stairs during the month of Ashada are severely inconvenienced due to the lack of basic infrastructural facilities."

Awareness on cleanliness, plastic ban held at Chamundi foothill

Mysuru, July 5 (MK&KS)- A campaign to create awareness on maintaining cleanliness and to make the devotees and public know about the ban on plastics was held by the District Administration, Zilla Panchayat, Clean Mysuru Foundation and other NGOs at the footsteps of Chamundi Hill yesterday.

Deputy Commissioner (DC) Dr. K.V. Rajendra, who launched the campaign, said that the public should shun usage of plastics and should help maintain cleanliness for a healthy environment. Mysuru Taluk Panchayat Executive Officer H.D. Girish, Chamundi Hill Gram Panchayat PDO Roopesh and others were present.

At Rs. 100 per kg, Tomato dents pocket

The rate of vegetables and essential items in city markets go up

Mysuru, July 5 (BLU&BS)- Amid the rising inflation cost, the common man especially in Mysuru is feeling heavier on the pocket, with the surge in prices of vegetables and essential commodities.

The price of tomato has touched whopping Rs. 80 to Rs. 100 per kg against the price of Rs. 40 two weeks ago, at the retail markets in the city.

When *Star of Mysore (SOM)* reporter visited Devaraja Market on Sayyaji Rao Road in the city this morning, the vendors attributed the rise in tomato prices to the prevailing condition of scanty rainfall even less than the seasonal downpour. Though the markets in the city receive their share of supplies of vegetables from Nanjangud and other rural areas in the surroundings, the larger share comes from Bengaluru Rural and Kolar districts which top tomato cultivation in the State.

Normally in the month of Ashada, during which no auspicious ceremonies are planned, the prices of vegetables remain stable. But due to the gloomy weather and less of rainfall, the agriculture sector has been badly hit.

Even the prices of other vegetables have shot up, like Beans - Rs. 80 per kg (old rate Rs. 40), carrot Rs. 60 to Rs. 80 (Rs. 30 to Rs. 40), capsicum- Rs. 40 to Rs. 60 (old rate Rs. 30), Beetroot - Rs. 40 (Rs. 30) to name a few. Though the price of onion remains stable at Rs. 30, the garlic has touched Rs. 150 (Rs. 100 to Rs. 120) and Brinjal at Rs. 40 (Rs. 20). The breather here is the price of leaves which in the recent months had touched the sky, with a bunch of coriander the most used leaves in culinary touching Rs. 40 slipping to Rs. 20 now. The rates of essential commodities like Toor Dal hover in the range of Rs. 130 to Rs. 150, Jeera - Rs. 600 to Rs. 800, Byadgi Chilli - Rs. 500 to Rs. 660, tea powder - Rs. 120 to Rs. 140. The bath soaps have also become dearer at least by Rs. four. But the reprieve is edible oil, the per litre price of which has reduced to Rs. 110 against Rs. 180 earlier.

Speed radar guns to book violators on Expressway

(Continued from page 1)

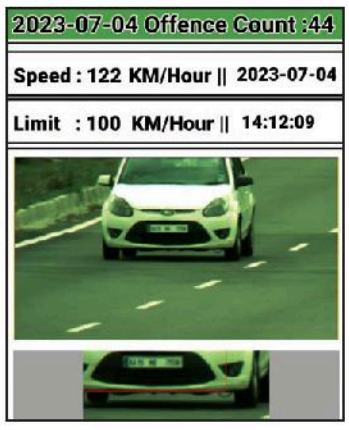
Following a significant increase in road accidents and casualties, Alok Kumar recently visited a few stretches of the Expressway, acknowledging the seriousness of the situation. He cautioned motorists about strict enforcement and warned that driving licences could be revoked for those exceeding speed limits.

Alok Kumar also noted instances of small vehicles surpassing the 100 kmph limit and losing control, resulting in collisions with medians and vehicles travelling in the opposite direction. In his tweet, Alok Kumar has also shared an image of a car that was speeding at 122 kmph while the speed limit is 100 kmph.

However, as these measures yielded no significant improvement, Traffic Police interceptors have been deployed to tackle the issue of overspeeding. These interceptors will monitor vehicles exceeding 100 kmph.

Authorities are exploring deploying sectional speed detection systems on the Expressway to automatically capture the speed of vehicles between the two points and flag violations at the nearest toll plaza to enable the Police to take action against the violators.

"We are also evaluating safety



measures on other Expressways and Highways to implement successful practices on this Expressway. Sectional speed detection systems are being considered to automatically capture vehicle speeds and flag violations at toll plazas, facilitating necessary penal action," sources added.

In addition, the authorities are planning to intensify patrolling activities and provide handheld radar speed guns to officers to overcome technological limitations that cameras alone cannot address.

They are also considering reducing the speed limits for trucks and heavy goods vehicles to 60-80 km per hour and there are discussions about banning the entry of two-wheelers, three-wheelers, and tractors on the Expressway, according to sources.

Gangothri students stage demonstration demanding facilities

Mysuru, July 5 (PM&DM)- Alleging that the Manasagangothri campus of the University of Mysore (UoM) was lacking in facilities, students and hostel inmates, under the banner of Dalit Vidyarthi Okkoota, staged a demonstration in front of the Clock Tower in Manasagangothri campus this morning.

The protesters alleged that the Men's Hostels in the campus lacked drinking water, street lights, quality food and other necessary facilities.

Maintaining that despite several representations to the concerned authorities, the Men's Hostels remained a neglected lot, they urged the officials to take immediate measures for addressing all issues concerning the hostels. They warned of intensifying the protest if their demands are not met. Okkoota office-bearers B.R. Paramjyothi, Gautam Maurya, Kiran Maurya, Rohan, Nandish and others took part in the protest.

Nanjangud Hospital gets award

Nanjangud, July 5- At a time when most of the Government Hospitals are lacking in infrastructure, one Hospital in Nanjangud town has bagged an award for best functioning.

The Government Maternity and Children's Hospital in Nanjangud has bagged the prestigious 'LaQshya Award' given by the Union Ministry of Health and Family Welfare. LaQshya is a quality improvement initiative in Labour Room and Maternity, which aims to ensure quality of care during Intrapartum and immediate Post-Partum period in Labour Room and Maternity OT.

With the award, the Nanjangud Maternity Hospital has gained national attention in Maternity and Child Care. It will also get more funds from the Government, according to Hospital Superintendent Dr. Shivaprasad, who has thanked the Doctors, Nurses, Paramedical personnel and all other staff of the Hospital for their service.

T.B. Jayachandra is special representative in Delhi

Jayachandra

Bengaluru, July 5 (KMS&DM)- Senior Congress MLA from Sira, T.B. Jayachandra, who missed out on a Cabinet berth, has been appointed as the State's special representative in New Delhi.

He has been accorded Cabinet status and granted all facilities associated with the rank of a Cabinet Minister.

In other appointments, Minor Irrigation Minister N.S. Boseraju, an MLC, has been nominated as the Leader of the Legislative Council, while Congress leader and KPCC Working President Saleem Ahmed has been nominated as the Chief Whip of the Legislative Council and Ramdurga Congress MLA Ashok Pattan as the Chief Whip of the Legislative Assembly.

CRICKET TALK

By V.N. Prasad

Kangaroos Dance from 'Perth to Brisbane' as OZs take 2-1 lead at The Lords

Amidst a 'Barrage' of 'Body Line Bowling,' the pendulum swung from one extreme to the other at The Lords in the 2nd Test of the Ashes Series. It created all the moods that a 'Test Match' can provide to the Spectators, TV viewers etc; ugly & painful at times, absorbing at times, boring at times, excitement at times, disappointments at times. Eventually the Kangaroos had the last laugh as they clinched a 43 runs victory. In the history of Test Cricket, this was the only match in which Helmets were struck with vicious 'Short Pitched' snorters; calling for physio to check concussions in the batsmen maximum number of times. Fortunately, none was injured grievously.

Packed crowds all across the iconic Lords watched the encounter with the hope that the English would square up the series and proceed to 'LEEDS' with more challenges. Over a 1000 enthusiasts from Australia are in England to back the Aussies. They have NEVER won a series in England since 2001. But, much akin to a "Tennis Grand Slam", a 2-0 can convert eventually to 3-2, between the two best cricketing teams in the world today.

Batting first on a green and hard track, David Warner (66) and Usman Khawaja (17) struggled — as the English seamers bowled beautifully. Stuart Broad, Josh Tongue and Robinson bowled with vigour and consistency; creating the typical corridor of uncertainties. Jimmy Anderson at 41 has lost the sting. But, it was "The Find of our own IPL; the chocolate faced Steven Smith" who exhibited his vintage class as he 'Cover Drove' and 'Flicked off the Toes to long on' to script his 32nd Test hundred in a master class. Undeniably, he is the best Test batsman today with an average close to 60 runs. He was well supported by Travis Head (77); known for his quick scoring and hard hitting. Total of 416 was a challenging one for the Englishmen to follow.

Zak Crawley (48), Ollie Pope (42) and Harry Brook (50) faced barrage of sharp rising deliveries. It was Ben Duckett who stroked 98 beautifully, but missed his richly deserved hundred. Joe Root perished trying to hook a sharp rising delivery by Starc as Smith took an easy catch. For the OZs, the pace battery of Pat Cummins (1) , Mitchell Starc (3), Josh Hazlewood (2) and Cameron Green (1) used the hard deck to skittle out the Englishmen; wrapping them up for 325 as England conceded a formidable lead of 91 runs. Travis Head bowled Off Spin and took 2 wickets adding to the woes of the English.

Aussies batted in the second inning fearfully, as the English seamers ensured that the 11th yard of the deck was dug up — sending sharp rising deliveries consistently as the Aussies folded up 279 @ 2.74 — a 'Boring' script. Except Khawaja's painstaking 77 off 187 deliveries, none else seemed confident in an exhibition of accurate bowling by the English. Broad took 4 wickets and Tongue and Robinson 2 apiece. Robinson and Broad were lethal. That left the Englishmen to chase 371, an imposing target.

Starc was devastating in his 1st spell as he packed off Crawley (3) and Pope (3); the delivery to Pope was a beauty that went through a tiny 4 inches of gap between bat & pad and castled the middle stump. Brook (4) was castled by Cummins. Joe Root, the best batsman of England, could not fend a rising one from Cummins and spooned a simple catch to Warner in the 1st Slip, for 18. 'Bodyline' bowling by the OZs was intimidating. It all looked as though the Englishmen had resigned to the rout; but were chancing an improbable chase.

On the 5th day, all around the world anticipated a clean wrap up in the 1st session. But yet again, it was the very impressive Ben Duckett who batted beautifully to score 83, as skipper Stokes batted cautiously. He was caught behind by Alex Carey off Hazelwood; a brilliant high catch. The 132 partnership with struggling skipper Ben Stokes was eventful. Post lunch on the 5th day, 'Hell Broke Loose' as Stokes went 'Hammer & Tongs' and plundered 9 sixes and raced to a brilliant 155 off 215. He survived two chances however. Steve Smith, one of the best catchers in world cricket, dropped an easy one that he would have held 99 out of 100 times. Another one was a 'Hard Return Catch' by Cummins. But, a boring encounter prior to lunch was converted to a T20 show. Stokes was devastated as he skied a mishit off Hazelwood and keeper Carey took an easy catch. Rest was a formality. Young Tongue braved out to swing & smash 19 before he was castled by Starc. Englishmen folded up at 327 @ an impressive 4.01 — a very high run rate on the 5th day.

Kangaroos had the last laugh as Starc, Cummins and Hazelwood picked 3 apiece. The cricketing world thanks the OZs and the Englishmen for the entertainment amidst of one of the strangest Test match that the world has witnessed. We now keenly look forward to the 3rd one at the LEEDS; more of cricket and less of intimidation ▪

Winners of Inter-Collegiate Cricket Tourney

The final year students of Department of Studies (DoS) in Business Administration, Pooja Bhagavat Memorial Mahajana Education Centre (PBMMEC), Mysuru, emerged victorious in the Inter-Collegiate, 30 Yards Cricket Tournament — MICric 2023 — organised by Mysore Institute of Commerce and Arts (MICA), Mysuru, recently. The team included C.D. Sandesh, M. Kiran, K.M. Vikas, R. Appu, M. Praveen, S. Mohan Kumar, U.R. Govardhan with Support Team of D.N. Nachiketha, M.S. Adharsh, Vishwas, Nanje Gowda, Lenord, S. Abhishek, G. Chethan, Kiran and M.U. Charan.

Shines in Badminton

Mysuru, July 5- M.J. Mohammed Zaid, a II PUC student of Trinity College, Mysuru, who represented Karnataka State at the 66th National School Badminton Championship/Tournament held at Gwalior in Madhya Pradesh recently, has secured 2nd place in Badminton. The 19-year-old is the son of M.K. Jaleel, a resident of Mysuru.

Due to the COVID pandemic, the Madhya Pradesh Government School Education Department, in collaboration with the Sports and Youth Welfare Department, had organised the 66th National School Games, after a gap of three years.

The event is conducted by the School Games Federation of India, featuring around 3,476 athletes from across the country participating in 20 sport disciplines, out of which about 1,100 players participated in Hockey and Badminton competition at Gwalior between June 8 and 12.

Mohammed Zaid

Fair Price Shop Dealers' Assn. opposes 'Cash For Rice'

Dealers meet in Bengaluru and resolve to urge the Government to roll back the decision

Mysuru, July 5 (SBD&BS)- Karnataka State Government Fair Price Shop Dealers' Association (KSGFPSDA) has urged the Government to revoke the decision of giving cash instead of five kg additional rice to the beneficiaries under *Anna Bhagya* scheme, for now.

The Members of the Association, who attended the meeting convened at a private hotel in Bengaluru yesterday, resolved to exert pressure on the Government to roll back its decision. Following the meeting, a memorandum was also submitted to the Commissioner of Food, Civil Supplies and Consumer Affairs Department.

Ravi, President of KSGFPSDA, Mysuru City, who had attended the meeting said that "*Anna Bhagya Yojane* under which 10 kg of rice will be given to both Antyodaya and BPL card holders has been implemented. With the non-availability of required quantity of rice, the Government has decided to give the amount of five kg rice along with five kg rice being supplied now. It will mete out injustice to fair price shop owners. In this backdrop a State-level meeting was conducted and key matters were discussed."

If cash is given against rice, the fair price shop dealers will be deprived of the Commission. Though it is announced to pay by cash as a temporary measure, if the arrangement continues it will cause a big loss to the dealers. The previous BJP-led State Government and the Central Government had also mooted a similar idea, but dropped when convinced about the pros and cons. Though some of the States had adopted a similar measure of cash for rice, it had inconvenienced not just dealers, but also the beneficiaries and farmers, forcing to return to earlier system of providing essential commodities.

By giving cash for rice, the families of over 22,000 dealers in the State will be pushed to streets. The dealers are apprehensive over the possibilities of continuing with 'cash for rice' system citing non-availability of rice in the future too, that will render them jobless, added Ravi.

The card holders must be distributed rice only. If there is no adequate quantity of rice to meet the present demand, ragi, jowar, sugar, wheat and other essential items should be given as alternate measure. It was also discussed in the meeting to exert pressure through district units of the Association in the State to exert pressure on respective District In-charge Ministers.

A memorandum has been already submitted to Deputy Chief Minister D.K. Shivakumar. In the coming days, it has been decided to meet Chief Minister Siddharamaiah too in this regard. Our next decision hinges on the stand of the Government, added Ravi President of KSGFPSDA, Mysuru City.

President of KSGFPSDA K. Krishnappa, Secretary Channakeshava Gowda conducted the meeting that was attended by thousands of office-bearers from all the district and taluk-levels.

DC unhappy over non-implementation of e-office software in Taluk Office

Mysuru, July 5 (RK&TRR)- Expressing unhappiness over the non-implementation of 'e-Office' software in Taluk Offices, Deputy Commissioner (DC) Dr. K.V. Rajendra directed the officials to adapt the software and provide transparent services to the general public, farmers and social security scheme beneficiaries.

'e-Office' software is a citizen portal content owned by Government of Karnataka and designed, developed and hosted by e-governance, Government of India to ensure faster movement of files.

The DC, who visited the Taluk Office complex at Nazarbad in city on Monday, inspected the offices of Revenue branch, Revenue Inspectors' Office, Despatch Section, Redistributive Resource Transfer (RRT) Bhumi Centre, Central Record Section, Deputy Tahsildar's Office, Survey Office and Election Offices to know the working style of these Offices and found that though all the works are being done online, 'e-office' software was not being used in these offices.

Expressing his unhappiness, DC Dr. Rajendra directed the officials to make use of e-software and provide transparent and efficient services to the citizens.

The DC directed Tahsildar B.S. Girish to keep track of the applications received from specially disabled persons, widows about social security schemes and clear them at the earliest. In addition, application regarding RTC corrections, Khata, Tax, Pouti Khata and Land record services should also be cleared without any delay, directed the DC to the officials.

Dr. Rajendra also listened to the grievances of the public at the Taluk Office and heard complaints.

The DC warned officials on initiating legal action if he receives any complaint about unnecessary delay in clearing the applications.

Later, the DC held a meeting with the Tahsildar, Deputy Tahsildar, Shirastedar, Revenue Inspectors and Village Accountants at Court Hall and directed the officials to make necessary corrections in Col.3 and 9 of RTC.

He also asked officials to submit a proposal to the Government regarding earmarking of Government lands for burial grounds in villages as per the population and on purchase of private lands in case of non availability of Government land. The DC instructed the officials to clear applications received at Atal Janasnehi Centres within 7 days.

By-election to Gram Panchayat seats on July 23

Bengaluru, July 5- The by-election to 430 vacant seats in 188 Gram Panchayats (GPs) across the State will be held on July 23.

Accordingly, the by-election to 9 seats in 9 different GPs of Mysuru district will be held on July 23.

The Election Commission will issue the notification for the polls on July 6 and the last date for filing of nomination papers is July 12. Scrutiny of nomination papers will take place on July 13 and the last date for withdrawal of nomination is July 15. The voting, if necessary, will take place from 7am to 5pm on July 23. The re-poll, if found necessary, will be held on July 25 and the counting of votes will be taken up on July 26 at the respective taluk centres.

The by-polls will take place for one seat each in Devanur and Devarayashettipura Gram Panchayats in Nanjangud taluk, Hemmige GP in T. Narasipur taluk, Jabagere, Tattekere and Kademanuganahalli GPs in Hunsur taluk, Habbapura GP in K.R. Nagar taluk, Madapura and N. Begur GPs in H.D. Kote taluk.

With the announcement of by-poll schedule, Model Code of conduct will be in effect from July 6 to 26 in the jurisdictions of the GPs where the by-polls will be held, according to a press release.

Control Rooms set up

With the Election Commission announcing the schedule for GP by-polls , the District Administration has set up Control Rooms for smooth conduct of the by-polls. The Control Room Phone Numbers are: Helpline 1077 in the Mysuru Deputy Commissioner's Office, Hunsur- 08222- 252073, Nanjangud- 08221- 223108, T. Narasipur- 08227- 260210, K.R. Nagar- 08223-262234, Hunsur-08222-252959 and H.D. Kote- 08228-255600.

Governor orders release of pension to Mysore Varsity pensioners

Mysuru, July 5 (SBD&DM)- A day after pensioners of University of Mysore (UoM) staged a demonstration seeking payment of pension, the Office of the Governor, who is also the Chancellor of all State-run Universities, has authorised the University Registrar and the Finance Officer to release pension, salaries of staff and other financial transactions pertaining to the University.

The payment of pension got delayed in the absence of a Vice-Chancellor, with the High Court staying the appointment of Prof. N.K. Lokanath as the Vice-Chancellor. This had resulted in the non-payment of pension to about 1,860 pensioners of the University, following which the pensioners had staged a demonstration in front of Crawford Hall here on Monday.

Now the pensioners can heave a sigh of relief with the Governor's Office authorising the Registrar for release of pension.

Meanwhile, Pensioners Association Secretary Krishnamallegowda has thanked Chief Minister Siddharamaiah, District In-charge Minister Dr. H.C. Mahadevappa and the Governor for release of salaries of staff and pension to pensioners.

WORD OF THE DAY

Hashtag

Pronunciation: HASH-tag.
Meaning: A hashtag is a word or phrase that starts with the symbol # and that categorises or comments on the text or image it accompanies. The word hashtag can also refer to the symbol # as used in a hashtag.
Origin: Hashtags are an everyday part of Internet culture, thanks to social media. Originally designed for categorising posts (that is tagging them) on Twitter, hashtags now commonly also supplement or comment on whatever text or image they accompany. The "hash" in hashtag is short for hash mark, a term for what we also call a pound sign or, if you want to apply the word-nerdiest designation, an octothorpe. Hash in this case is probably an alteration of hatch, a term for the lines artists sometimes use to add shading to a drawing.
Example: "While attending opening ceremony for screening of the festival's opening film, 'Jeanne du Barry,' the 'Shazam! Fury of the Gods' star [Dame Helen Mirren] walked red carpet at Palais des Festivals in Cannes, France, and showed off a blue hairstyle to match her blue gown. Mirren paired her look with matching earrings, a necklace and a black fan with the hashtag #WorthIt." —Angeline Jane Bernabe, ABC News, 16 May 2023.

THE ODD WORD

Harn

Coarse linen.

PHRASE OF THE DAY

Half a loaf is better than no bread

Meaning: Something, even if it isn't what you ideally would prefer, is better than nothing.
Origin: This proverbial saying is first found in the same place as many other proverbial sayings - John Heywood's 1546 glossary A Dialogue conteinyng the nomber in effect of all the Prouerbes in the Englishe tongue:
Throwe no gyft agayne at the giuers head,
For better is halfe a lofe then no bread.
Many proverbs are a form of condensed popular wisdom and 'half a loaf is better than no bread' seems like plain common sense - few would argue with it. Nevertheless, in psychology experiments to determine whether fairness was an innate concept in humans or whether it was learned, pairs of UK and US children have been set the following test:
One child is offered four sweets (or candy if you prefer) and the other is offered one. The child with the opportunity to take four sweets is given this choice: A. Either, you get four sweets and the other child gets one. B. Or, you both get nothing. Surprisingly to many, children routinely choose option B and reject the sweets, preferring to maintain a sense of fairness. In purely material terms this makes little sense as, by maintaining fairness, the choosing child robs the partner of one sweet and him/herself of four.

QUOTE BOX

The hunger for love is much more difficult to remove than the hunger for bread. **—Mother Teresa**

RIDDLE THIS

Solve the rebus:

JOB IN JOB

Answer: In between jobs.

CROSS WORD

ACROSS:
1 A company that sells things made from components bought in bulk from another manufacturer
4 Soapy water or soap bubble, usually used in plural form

Sudoku is a number-placing puzzle based on a 9x9 grid with several given numbers. The object is to place the numbers 1 to 9 in the empty squares so that each row, each column and each 3x3 box contains the same number only once. The difficulty level of the Concept is Sudoku increases from Monday to Sunday.

CRYPTOQUIP

The Cryptoquip is a substitution cipher in which one letter stands for another. If you think that X equals O, it will equal O throughout the puzzle. Single letters, short words and words using an apostrophe give you clues to locating vowels. Solution is by trial and error.
